Summary

Experienced ESL educator and creative learning developer with 15+ years of experience teaching English, designing comprehensive curricula, and developing interactive learning materials for K–12 and adult audiences. Combines language instruction, game-based learning, multimedia production, and teacher training to create engaging, student-centered learning experiences.

ESL Educator, Curriculum & Media Developer

South Korea | Multiple Elementary Programs
2007–2024

Sunil Elementary	2018–2024
Hongik Univ. Elem.	2017–2018
Eunhye Elementary	2015–2017
Dangsan Elementary	2013–2014

- Developed a comprehensive, year-long curriculum system for Grades 1–6, including six course books and supplemental instructional materials, aligned with speaking-focused learning objectives
- Designed and delivered 12-week high school English courses focused on interview preparation, practical communication, and speaking proficiency
- Developed debate course books emphasizing public speaking, persuasive communication, and introductory debate
- Led the speaking department, coordinating curriculum development, instructional resources, themed programs, and school-wide events
- Designed and programmed dozens of interactive digital games and developed physical learning games to encourage spontaneous speaking and student engagement
- Trained and mentored teaching staff in instructional technology, multimedia production, and effective use of Adobe Creative Suite and other media tools
- Taught filming, editing, and project presentation to upper-grade students through hands-on media production projects
- Produced, filmed, and edited instructional and promotional videos for classroom use and school-wide events
- Self-taught Unity and designed, programmed, and delivered a 3D educational board game within two weeks
- Developed Excel-based tracking systems using advanced formulas to manage grades, attendance, and student performance data
- Composed original music and produced, mixed, and mastered audio for lessons, performances, and promotional media
